

E4

The E4 is an unobtrusive, low-voltage, directional fixture. Its minimalist design brings attention to the lamp's effect, not to the fixture itself. The E4 takes advantage of LED modules that can produce 10°-120° beam spreads with just a simple change of our line of field-serviceable optics.

Shown with Dark Bronze finish

Construction All brass components. 1/8" [3mm] thick brass housing.

Lens Tempered soda lime glass. Stepped to prevent pooling of water on lens.

Voltage 12 Volts AC with integral driver (9-15V input, dimmable below 9V). Remote transformer required.

Mounting Two #8 x 2" long brass wood screws (included) secure canopy to the mounting surface.

1" knurled locknut between U-bracket and canopy allows left / right aiming of fixture and locks position.

Fixture canopy accepts wiring from the back. Two semicircular cutouts, one at the top and one at the bottom of the canopy, accept surface run wiring. Silicone-filled wire nuts (included) allow splicing within the canopy.

Lamps Triac dimmable: MLV >6% typ., ELV >16% typ.

Finish: Unfinished is standard; no specification required. The fixture will weather to a natural patina. The patina process is natural with brass and copper. Rate of patina and eventual color is dependent upon climate and proximity to the ocean. Thus, Beachside does not guarantee any specific appearance.
