

DB

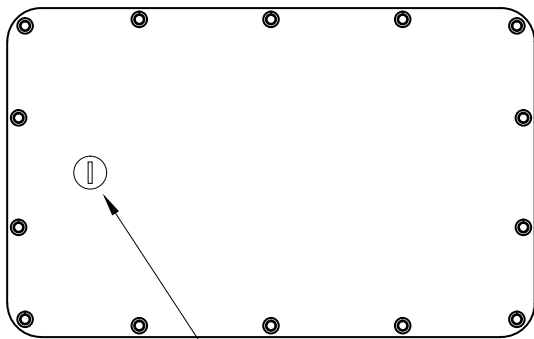

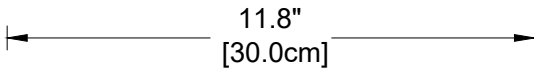

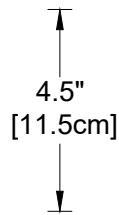

The DB-series are in-grade transformers for use with remotely mounted fixtures. They are made from compression-molded, fiberglass-reinforced polyester that is resistant to rust, corrosion, oils, gasoline, and detergents. Housing cover is fully gasketed to provide a watertight seal.

120V input / 12V output low-voltage transformer, rated for wet locations

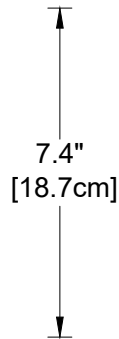

Transformer	___ DB150	150 Watts
Wattage	___ DB300	300 Watts
	___ DB600	600 Watts

(2) 3/4" Conduit Entries to Junction Box

(1) 1/2" Conduit Entry to Fixture
