

MB6

The MB-series classic-style bollards for concrete installation set the standard for durable, corrosion-resistant walkway lighting. The lamp is protected by a threaded glass lens and an internal brass collar with stainless steel mounting hardware helps ensure stability. The multi-louver design uses omnidirectional LED lamps. The single-louver design uses drop-in MR16 LEDs and integrated LED light engines

Construction Cast brass shade and louver assembly. 4" diameter brass tube x 0.090" wall thickness (10.2 cm x 2.3 mm).

Mounting Concrete-mounted fixture uses 3/8" stainless steel anchor bolts through an internal brass mounting collar. Stainless steel hex nuts and washers below collar allow for levelling.

Lens Vapor-proof, tempered glass with threaded fitter.

Finish: Unfinished is standard; no specification required. The fixture will weather to a natural patina. The patina process is natural with brass and copper. Rate of patina and eventual color is dependent upon climate and proximity to the ocean. Thus, Beachside does not guarantee any specific appearance.
