

VTM-PALM

The VTM-PALM is a strap assembly that accommodates between one and four brass junction boxes for a maximum of eight total luminaires: four on top for uplighting, four on bottom for downlighting. Each box can be located independently on the strap prior to final installation, allowing custom positioning for trunks ranging from 12 - 28 inches (31 - 71 cm) in diameter. Boxes are just 2.25 inches wide (2.18 at the back) x 2.25 inches deep (57 x 57 mm), making the VTM-PALM a much cleaner, lower-profile alternative to typical palm tree rings.

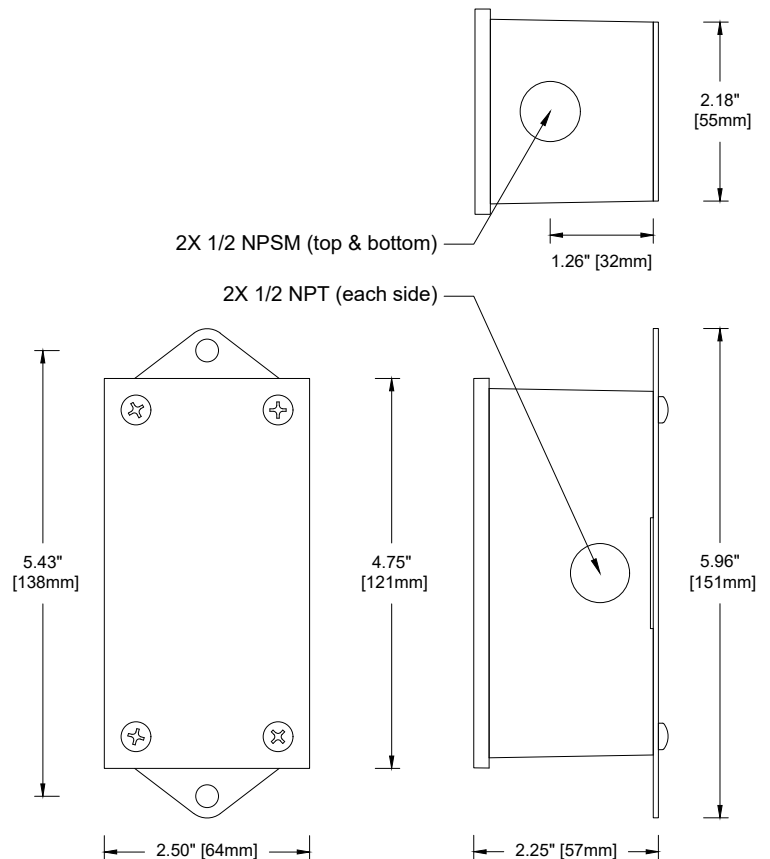

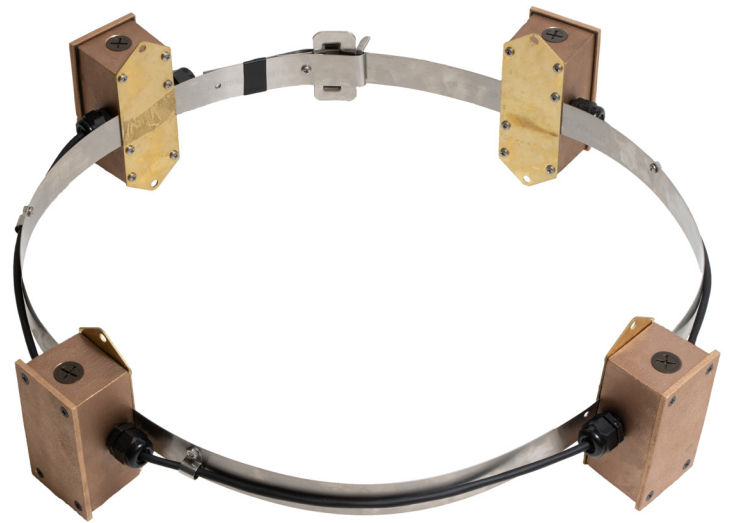

Construction Strap: 1.25" high x 0.030" thick (32 mm x 0.7 mm) type 316 stainless steel with stainless steel buckle.
Box: Red brass box and cover, 1/8"-thick (3.2 mm) wall thickness. Supplied with two 1/2" NPT nylon cordgrip connectors and two optional stainless steel sheet metal screws per box.

Box Quantity ☐ 1
☐ 2
☐ 3
☐ 4

Electrical Boxes are connected with 16 ga. SJOOW cord. Supplied with 3 meters of cord, cut to size in field during installation.
☐ **12V** 2-conductor round cord
☐ **120V** 3-conductor round cord with earth/ground for 120 or 230-Volt (mains)

Strap Length ☐ **70 inches** (178 cm) for trunk diameter up to 22" (56 cm)
☐ **88 inches** (224 cm) for trunk diameter up to 28" (71 cm)

Weight Total weight based on box quantity and strap length. Does not include weight of luminaires.
Box + Cover: 2.0 lbs (0.9 kg) per set
70" strap: 0.8 lbs (0.4 kg)
88" strap: 1.0 lbs (0.5 kg)
